Usually ships within 15 days

You need to set-up a Web site but, where do you start? With a book on HTML? A book on Active X? A book on any one of dozens of other geeky subjects?

No! Start with the Low cost Web Site, the only book that explains all the steps you need to take to set-up a web site ... in a down-to-earth, easy-to-understand, geek-free style!

You will learn everything you need to know, not some complicated programming language.

You will find out the answers to questions such as these:

- * Do you really need a Website? (Forget the hype, not everyone does!)
- * What are the different ways of using your Web site?
- * Where can you put your Web site? (There are nine different options.)
- * How do you find a Web hosting company?
- * How can you create Web pages? (You do not have to learn HTML)
- * How do you get your own domain name? And, why you must do so?
- * How can you take orders online?
- * How can you make sure your Web site works properly?

This book will show you how to set up your Web site without blowing the budget; and you do not have to learn all the geek stuff. Just read into the book for answers.

About Unicorn Books
